If you are looking for a game where you use destruction and a variety of weapons to fight your way through your enemies, then this is for you. This review is for the 360 version of the game. Storyline: Three years ago, the world was a different place. We only saw technology of the future, but not how it would play out. The Governments, in order to save the world from being destroyed, created a magical bubble which held the world in place, but the bubble shattered, sending the world into chaos. Even with the protective shield in place, people were dying at an alarming rate. It was clear that something had to be done, and it was quickly. A man who had been working in the government's program to save the world, found something. He took it, and he was caught, tried, and executed. FIVE HUNDRED YEARS AGO The world is still trying to recover from the devastating events of the last five centuries, but life as it once was is long gone. Now, a young boy named Conor is living in the middle of this new world, trying to start his life over, and find a purpose, as he tries to help those around him. He doesn't care about the destruction and chaos that surrounds him, as he's been trained to fight the groups that are causing the destruction, and clean up the mess. Conor believes that this will stop the violence, so that things can get back to normal. LAST DAYS OF FIFTH AGE Two years ago, Connor was thrown into a training facility, where he was brought up to be the person he is today. He is the future protector of the remaining remnants of what had been a beautiful world. Connor will be there to protect all of humanity from the time of the Last Days, when the end of the world begins. Last Day has it's own story line, but it's a sequel to the previous game, Fight Night: Round Two.US President Donald Trump smiles
